

DANZER'S NOT ONLY KNOWN FOR THE SUPERIOR QUALITY OF ITS PRODUCTS AND SERVICE, WE'VE EARNED A REPUTATION FOR OUR COMMITMENT TO HONESTY, INTEGRITY AND TRANSPARENCY IN ALL WE DO. WE GIVE CUSTOMERS THE CONFIDENCE THAT COMES FROM WORKING WITH A TRUSTED PARTNER.

IT ALL ADDS UP

CONVENIENCE

A broad selection across two locations saves buying time. Our large inventory lets us ship the mixed loads of thickness, grade and species you need.

CONSISTENCY

New, upgraded facilities in Bradford and Shade Gap help ensure all lumber is of the highest quality, with the color and grade consistency you expect.

CUSTOMIZATION

We meet your exact specifications, including custom sorting by color, ripped-to-width, cut-to-size, S4S components, mouldings and custom surfacing.

SUSTAINABILITY

All raw materials are sourced responsibly. We produce close-to-the-source to save time, minimize transport cost and reduce environmental impact.

COUNT ON DANZER LUMBER NORTH AMERICA: TWO LOCATIONS TO MEET YOUR NEEDS

BRADFORD *PRODUCING PREMIUM HARDWOOD LUMBER*

Danzer’s Bradford sawmill, opened in 1988, is among the 10 largest hardwood sawmills in North America.

- Buys standing timber and logs for processing into lumber
- Produces 8 to 10,000,000 bf (18-23,000m³s) per year
- Offers dimension products: 4/4 – 12/4; all NHLA grades as well as custom sorts
- Dimension products offered include dimension lumber, ripped-to-width, cut-to-size panels, S4S components, mouldings, surfacing
- Specializes in Cherry, producing a consistent light color; and Maple, producing a consistent bright color

Private Timberland Assessment Program

Also available through the Bradford facility are professional, structured forest management services that provide timberland owners the guidance they need to derive long-term value from their forests.

SHADE GAP *SPECIALIZING IN DRYING THICK STOCK LUMBER*

Danzer’s Shade Gap facility is known for exceptional thick-lumber drying capabilities, since 1987.

- Buys lumber and dries and grades lumber
- Processes approximately 30,000,000 bf (71,000 m³s) per year
- Produces high-quality dried lumber in thick stock (8/4, 10/4, 12/4) as well as typical thicknesses
- Specializes in RTW strips, S2S, SLR, CIF shorts, drying, steaming
- Specializes in drying thick Northern White Oak and steaming Black Walnut

Our North American facilities—Bradford and Shade Gap—are located in Pennsylvania, close to the source of sustainably produced, premium hardwoods in the U.S. This proximity gives us the control needed for optimal quality, from the time a tree is felled until the finished product is shipped.

While each location has its own distinct product portfolio, customers procure hardwood lumber and kiln-dried thick-stock lumber from a single Danzer sales/service professional—giving you ultimate flexibility. For example, if you need Walnut thick dried lumber (produced in Shade Gap) and Cherry lumber (produced in Bradford) you place a single order with a representative from either facility. We save you time and hassle—assuring you the high quality products you want, and peace-of-mind you need.
